

Comenius Meeting
“Diversity in Europe – a common voice for a sustainable development”
Paphos Technical School
Paphos /Cyprus 17-22 March 2010

1.How do you evaluate the program of the project meeting in Cyprus ?

- A very interesting program. We liked school and the island environment is very beautiful.
- The program was good and very interesting because of the school type and the sites we visited. The island of Cyprus is beautiful and places are very nice. Visiting school and participating to the school buffet was a very good experience for all of us particularly because we teach in a vocational school, too.
- We had a very good time and we hope to participate again in this project
- This program of the project meeting in Cyprus , was a very worthy one and I learnt to communicate with people with different language.
- This program was a unique opportunity for me and our trip to Cyprus was amazing and I hope I can participate again.
- The organization, the program, the visits were very well .It was perfect. I like very much because many teachers involved to the project and all the time were very willing to help us.
- I like very much all the program in Paphos. The visits were very well. I had a perfect time in Cyprus because I met a lot of Cypriot teachers who all the time were with us.
- Very well. I enjoyed being there and widening my horizons.I like the balance between project work and other activities giving knowledge about people and country.I am very impressed of the hospitality
- I think that the program was well organized and selected. Tasks that have been entrusted to us have been selected in accordance with our interests and hobbies. These weren't only the tasks, workshops or presentations of the program, but also a very pleasant trips and meetings.

2.What did you learn about Cyprus and Cyprus people?

- We liked Cypriot people, girls and boys very much. People were nice and kind. Parents were very friendly with us. We learnt that ancient culture, songs and dances are very important in Cypriot even among young people. People are always so happy and glad. We could see that there is a mixture of different cultures and traditions. We liked that a lot.
- What beautiful people! We are experienced in different aspects of Cyprus life. We consider them very near to Sardinian people, they are always nice and kind. Then because of the problems Cypriot face they are similar to our island people. They are very proud of their culture and of what they have achieved during these years. The very nice characteristic of Cypriot people is that they are so happy, friendly and the fact that they sing and dance all the time. Food, music and dances are so involving!!!
- Although Cypriot speak the same language with us, they have different accent but they have the same meaning

- I learned a lot about their culture and their habits and also about the way they live after one part of their country is being Turkish
- In this project meeting I learned about Cypriot culture. I also learned about their traditional food and their history.
- A lot of things about their culture, their hospitality. I really liked the places we visited. Very nice people, very kind. They have given us great hospitality. A carefree place where the timeless goodness of people are nowadays significant
- I learnt a lot of things about their culture, their hospitality. I really liked the places we visited. Very nice people, very kind. They have given us great hospitality. Of course, because I come from Greece, I love Cyprus and I felt very happy because I had cooperation with this school.
- I am very impressed of the hospitality. People are very warm, friendly, they like enjoying everything. People are opened.
- I learned a lot about their culture and way of being. I was impressed with the mentality of these People and a very warm atmosphere prevailing among them. I was accepted very kindly too.
- Cyprians are very helpful and hospitable people, when problem appears they don't worry, just try to solve it. Even cashiers in supermarkets are smiling to you while giving change. They know how to enjoy life.

3.What were the best aspects of taking part in this project meeting?

- Taking part in people's every day lives and participating in school activities, seeing different ways of teaching and studying are for us some of the best aspects of the project. The other very interesting and important thing is meeting people, different and similar to us, far and near to our culture, tasting new food and learning new words in a foreign language.
- We think it is a very good opportunity to take part in people's lives and to live, even for a little time, everyday life, to meet old and new friends, to see how teachers and students work, to learn and improve new teaching methodologies. Moreover, it was very interesting learning something more about history, politics and different features of Cyprus.
- Meeting new people and new culture. Making comparison between different cultures, school systems
- The best aspect of taking part in this project meeting is that I made a lot of friends from other country.
- I have been more communicate sociable, friendly and how I know a lot of things about Cypriots' culture, habits and history.
- The most important part of this project meeting in Cyprus was the new friends that I made and the new people that I met and worked with.
- I really liked the communication with European colleagues, the time that we spent together and the presentation of Cyprus school. I liked all the foods and the evening entertainment.
- I met a lot of new People with whom I'm still keeping in touch and I'd like to still do. I learned some new things that are priority in Comenius Project and also gained experience in working with other countries. I improved my English level too.
- As I said earlier it was getting to know new people and make new friends, but also it made me change myself and discover my hidden character traits. I started to see Europe and every nation a little differently, my opinion changed and I got to conclusion that even if we are not from the same places yet we are people and have similarities, we actually are having the same problems. Now for me this are not some empty words, because I could experience it on my own.

4. Is there something you were particularly satisfied or not satisfied with about the project meeting?

- We are particularly satisfied about the attitude of our friends' and parents' and their hospitality but we think that students didn't have enough time to participate more to activities linked to the project and to visit some more archaeological sites.
- Everything were so great that we didn't see something not satisfied.
- No, there is nothing particular. I am really satisfied with everything about the project meeting.
- Everything was magnificent that I couldn't find anything not satisfying.
- I believe that everything was perfect. I like very much the link that established between the teachers of Comenius project.
- I believe that everything was perfect.. For second time , I had the opportunity to have cooperation with European friends.
- We are particularly satisfied about the Cypriots teachers' and friends' hospitality but we would have appreciated a best organization about the time to see presentations for each country, for students and teachers works, better equipment to present works.
- We were particularly satisfied with hospitality of teachers and students. Food and parties were very good.
- Yes, it is something that I didn't like – duration of the meeting, it was far too short!
- Common objectives brought closer each other and at the final stage of the meeting we had a very good contact and pleasant work. Many participants also contended similarly to me.
- It was really great, shame that we could be there only for such a short time.
- . It was prepared well, but I do not have anything that I am particularly satisfied or no. Everything satisfied me equally.
